SEFI ANNUAL CONFERENCE 2017

CALL FOR PAPERS

Dear Colleague,

SEFI (European Society for Engineering Education) invites you to join us in the 45th Annual Conference, organized by the Instituto Superior de Engenharia do Porto (ISEP) that will take place at Azores (Portugal) on 18-21 September, 2017.

“Education Excellence for Sustainability” is the theme of the conference. Undoubtedly, that is a subject of paramount importance for the Azores Islands, which represents a world reference on the successful sustainability development aligned with the wonderful landscape values.

At this time, we are looking forward contributions under the following sub-themes:

- Sustainability and Engineering Education
- University-Business cooperation
- Engineering Skills
- Quality Assurance and Accreditation
- Continuing Engineering Education and Lifelong Learning
- Open and Online Engineering Education
- Ethics in Engineering Education
- Curriculum Development
- Attractiveness of Engineering Education
- Physics and Engineering Education
- Mathematics and Engineering Education
- Engineering Education Research
- Gender and Diversity
- “I want to contribute to solve local problems”

We also welcome student contributions and workshops proposals.

For the first time, an ASEE (American Society for Engineering Education) Global Colloquium will be preceding the SEFI conference, that will allow the increase of networking possibilities beyond the Atlantic Ocean. In addition, opportunities are given to participate in solving local engineering problems. In fact, some of them will be presented *in loco* but we want to encourage researches and proposals of solutions for existing challenges in engineering and engineering education in Azores.

The submission of abstracts is now open until 19 March 2017.

The conference official language is in English and all accepted papers will be referenced in SCOPUS.

More information available at www.sefi2017.eu

Abstract submission is in free form.
