PRES-EDT004/2026
PRES-EDT006/2026
PRES-EDT007/2026**Addendum I

ADDENDUM I**Public Notice PRES-EDT003/2026 | PRES-EDT004/2026 | PRES-
EDT006/2026 | PRES-EDT007/2026****1st and 2nd Application Stages for Access to the Master's and Doctoral Programmes
2026/2027**

On the 2nd of July of 2026, a technical outage prevented the electronic submission of applications for Master's programmes (PRES-EDT003/2026) and Doctoral programmes in Electrical Engineering and Computational Systems (DEESC) (PRES-EDT004/2026), Mechanical Engineering and Sustainable Production (DEMPS) (PRES-EDT006/2026) and Analytical Chemistry and Engineering for Environmental Sustainability (DQESA) (PRES-EDT007/2026), for reasons unrelated to ISEP's normal operations.

Considering that:

- the Public Notices PRES-EDT003/2026, PRES-EDT004/2026, PRES-EDT006/2026 and PRES-EDT007/2026 established, in Annex II, that the 1st and 2nd application stage for Master's and Doctoral Programmes for the 2026/2027 academic year would take place between the 3rd of June and 2nd of July of 2026;
- the technical unavailability is also beyond the control of the applicants, and so they cannot be held responsible for any failure to meet the initially set deadline;
- the need to safeguard the principles of equality, good administration, proportionality, and the protection of the applicants' legitimate expectations.

The President of the Instituto Superior de Engenharia do Porto, Professor Roque Brandão, hereby establishes:

1. Exceptional Extension of the Deadline

The deadline for submitting applications for the 1st application stage of the admissions process for ISEP's Master's and Doctoral programmes for the 2026/2027 academic year is extended, on an exceptional basis, until the 6th of July of 2026.

Consequently, and pursuant to the aforementioned extension, the deadlines established in Annex II for the 1st application stage are hereby adjusted, as are the deadlines for the publication of vacancies and application for the 2nd application stage, in accordance with the tables presented below.

2. Maintenance of the Remaining Rules

All other rules, conditions of access, and ranking criteria referred to in the Public Notices remain in full effect.
